DISCOVERING THE PROJECT

Digital Education Skills In Rural Europe

PRESENTATION DU PROJET

The project aims to improve digital inclusion practices in rural areas by identifying, analyzing, and disseminating effective strategies for digital education. Through collaboration among educational institutions and local stakeholders, it seeks to provide innovative tools and resources that address the specific needs of rural communities.

The specific aims of the project are:

- Contribute to **enhancing digital inclusion in rural areas** by identifying and analyzing existing learning practices and tools.
- **Select and disseminate good practices** in digital education to support adult trainers and organizations working in rural territories.
- **Develop, test, and publish an online toolkit** that offers practical guidance for adult digital education, including learning objectives, target groups, and pedagogical steps.
- **Promote collaboration** between public and private organizations to foster the exchange of successful digital education strategies in rural areas.

PARTNERS OF THE PROJECT

Coordinator
(FRANCE)

Partner
(FRANCE)

Partner
(ITALY)

Partner
(ITALY)

TARGET GROUP

Adult trainers in digital education operating in rural territories

Public bodies, including local authorities involved in digital education

Adult education centres and social organisations

ACTIVITIES AND RESULTS

The following activities will be implemented with the related results:

Development of a compendium of good practices of digital education in rural areas which focuses on new approaches to involve participants in rural territories.

Development of online toolkit which includes advices for running digital courses for adult education and a selection of learning tools.
